

HydraRedox Iberia participates in the investment forum NEOTEC-INNVIERTE 2017

23 November 2017

The investment forum **NEOTEC-INNVIERTE 2017**, for young technology-based companies focused on ICT (Information and Communication Technology) sector and Technologies to the Industrial sector took place in Madrid yesterday. The event was organized by the Center for Industrial Technological Development (CDTI).

HydraRedox Iberia was one of the few companies selected to present their technology and business model, amongst more than 100 candidates.

The main aim of this forum is to give visibility and facilitate access to financing in the form of capital (seed and venture capital) to the most promising companies that have participated in the recent calls for either the NEOTEC subsidy program of CDTI or recipients of the Seal of Excellence by the SME Instrument of the European Union Horizon 2020 programme.

The forum was attended by leading investors in these sectors, as well as important companies interested in investing in startups.

Speaker: Luis Collantes, CEO
